## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Eiermann (US Patent No. Patent 5,493,871). The disclosed invention consist of a flow system for an air conditioner and comprising: a reheat coil (14) located downstream of a cooling coil (54) which is located upstream of a pre-cooling coil (12). Further discloses a thermal heat source (16) for hot fluid (H.F.), a pump (18), a control valve (20), a bypass conduit (B.P.) and a controller (30) for modulating control valve (20). Moreover the said control valve can inherently operate as a bypass/hot water control valve by means of controller (30) and whereby the said control valve is inherently apt to control gas bubbles within hot water.

### ***Allowable Subject Matter***

**Claims 16-26 are allowed over the prior art of record.**

Claims 2-4 and 7-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvin Jones whose telephone number is (703) 305-0251. The examiner can normally be reached on Monday - Thursday.
